Chairman's Message

Dr. K. Sendhil kumar MS, FICS, FACS (USA), DNB (Surg. Gastro)
Chairman and Chief Laparoscopic surgeon

Dr. K. Sendhil Kumar, Founder and Chief, Gateway clinics, did his Under graduation and Post graduation at Coimbatore medical College. After completing his post graduation, he joined Dr. C. Palanivelu and worked with him for 14 years (from 1995 to 2009). During this period he completed DNB in surgical Gastroenterology. In DNB Surgical Gastroentrology exit examination, he scored nationwide 1st rank. He is experienced in all Advaned Laparoscopic Gastro surgery work and also in diagnostic as well as therapeutic endoscopy work, including advanced ERCP for biliary & Pancreatic pathologies. He along with his team has organized two live National Laparoscopic Surgery workshops "Celioscope 2013 and 2014". His work on laparoscopic surgery for choledochal cyst has been kept in SAGES (Society of American Gastrointestinal Endoscopic Surgeons) Library as teaching material. He has presented & published papers in various international conferences and journals. He is a life member of ASI (Association of Surgeons of India), AMASI (Association of Minimal Access Surgeons of India), IHS (Indian Association of Gastro Intestinal Endoscopic Surgeons), SAGES (Society of American Gastrointestinal Endoscopic Surgeons) and ACS (American College of Surgeons). His special interest is in the field of laparoscopic GI Cancer surgery and Therapeutic Endoscopy.

Director's Message

THE CONCEPT OF GENUINE COST at GATEWAY:

Being established and managed by doctors, we understand our patients needs and expectations better. We understand that modern healthcare, especially tertiary care GI super specialty services are expensive and difficult to afford by majority of population. This is true that real Quality comes with own cost, and biggest challenge is to strike the right balance between quality and cost. We are committed to provide patient centric, comprehensive world class quality by compassionate professionals, affordable and accessible to masses. All our services are genuinely priced and among the lowest in their category.

If you carry excess weight, then losing weight can help to change your life. Our patients tell us that weight-loss surgery gives them the chance to do things they never thought possible.

The Bariatric and Metabolic Surgery program at Gateway Clinics is a comprehensive program providing you with personalized attention as you work toward your weight-loss goal. An entire team of professionals, works to provide superior care for our patients. The team comprises professionals from many disciplines: Laparoscopic Bariatric Surgeons, physicians, anesthesiologists, Pulmonologist, Cardiologist, psychologist, specialized nurses and dietitian.

"When I had my weight loss surgery, it was the first day of the rest of my life."

- One of our operated patient

GATEWAY CLINICS
Chennai & Coimbatore, INDIA
Where the entire world meets for the best GASTRO Health Care

Medical Tourism in India is one of the best options available to people across the globe. Millions come every year to get treated and then enjoy their recuperative holidays across India. India provides world class medical facilities with hospitals and specialized multi specialty health centers providing their expertise.

We at Gateway Hospital, Chennai and Coimbatore are super specialized in GI care, a one stop solution for all medico-surgical Gastroenterology and Gynaecology related problems.

What is Medical Tourism?

Medical Tourism is a concept used to represent obtaining medical or surgical services while traveling or vacationing in another country.

What are the types of medico-surgical procedures that tourists usually seek in India?

There are a lot of different medical / surgical options for medical tourists at Gateway Hospital. The list of all facilities and Endoscopic- Laparoscopic surgery list has been mentioned in the same brochure.

What is the cost savings compared to the costs in my country?

The potential cost savings for medical tourists are huge and as a result are one of the more important factors in seeking treatment in India. It is important to note that the cost for each individual will vary depending on their need and requirements.

Are these costs savings due to lower standards of medicine in India?

Absolutely not, the Indian medical standards match up to the highly prescribed international standards. The lower costs are due to favorable currency conversion rates and lower costs of operating in India.
